Classical Inspiration from Wilton Carpets at Hardwick Hall

WILTON CARPETS

## HARDWICK HALL

A stunning carpet full of classic design cues and woven by Wilton Carpets now graces areas of Hardwick Hall, a four-star luxury country hotel considered one of the North East's most charming places to stay.

When looking for new carpet to adorn its Colman Suite, Crush Bar, corridors and lounge areas; the hotel turned to Wilton Carpets' bespoke service to create a design perfectly in keeping with its unique style. An oversize repeating scroll is layered beneath a pin-line interlocking hexagon and surrounded by a decorative border, tones of taupe and grey giving a sophisticated tonal look.

The bordered design serves to frame the three areas of the Colman Suite, which can be separated to accommodate different functions and covers and to provide definition to the adjacent Crush Bar. The design also works well to define the lounge area of the hotel and to provide a striking carpet in corridors.

Sam Dean, senior designer, Wilton Carpets, commented: "We worked with Space I.D to develop a carpet design that referenced the classical elegance of Hardwick Hall's 18th century architecture, while marking its status as one of the North East's most luxurious destinations. Through blending sophisticated contemporary geometrics with elegant florals and classic fret borders, we've managed to achieve the difficult balance between historic reference and modern intention. A bordered design such as this is also a great way to define individual areas, at the same time giving a unified look."

Installed by Pocklington Carpets, the 850 square metres of bespoke carpet were manufactured in Wilton's Wiltshire factory, axminster woven in an 80% British wool and 20% nylon blend for wear and appearance retention. In a seven-row quality, the carpet can withstand high footfall levels, while it's wool and nylon mix remains easy to clean, keeping the suite, bar, lounge and corridors looking their best throughout constant use.
