THE MOSQUE COLLECTION

Inspired by the beauty, architecture and features of Mosques and created by our UK-based design team, The Mosque Collection combines stunning designs, durability, value and practicality.

Explore The Mosque Collection, knowing that each bespoke design can be created in the colours of your choice, in any quality and woven on our state-of-the-art looms, right here in the UK.

Share your ideas with our Business Area Managers and our Design Studio and they will work with you to create the perfect solution for your mosque.

ADVICE AND SUPPORT

Our Business Area Managers are available to provide advice and expertise so that you enjoy the perfect carpet for the needs of your project.

DESIGN

Our experienced design team will work with you to create the perfect aesthetic for your interior. From simply offering advice through to working with you to develop final design.

WOOL-RICH AND DURABLE

Made from 80% pure new wool and 20% nylon, all of our carpets provide the perfect combination of luxury and durability. You can be confident that your carpet will be hard-wearing and keep its looks for years to come.

COLOUR

Using British yarn, we offer an extensive choice of colours, or we can match any shade with our custom-dye service.

Where time is short or budgets are under pressure, you can select colours from one of our stock palettes, which are permanently set on looms in our UK factory. Simply speak with our Business Area Managers for further detail.

SCALE

Our design team is also able amend the scale of any of The Mosque Collection designs to ensure it perfectly complements your interior.

LAYOUT

Once a design is selected and colours chosen, we develop your unique design, we provide CAD prints of ideas for your evaluation and approval. Your design ideas can be presented in a choice of roomviews to help you appreciate scale, and if you have architectural plans, we can flow-in the carpet design to view in situ.

With our electronic jacquard capability, we can design to any layout and can flow across two or more carpet widths, into one seamless weave. We use careful planning to minimise seams and make installation easier.
