HALCYON
PRINTED CARPET
COLLECTION

HALCYON PRINTED CARPET COLLECTION

This collection of beautiful printed carpet designs is made with an ultra-hard wearing nylon pile, offering great-looking pattern on the floor at a price that will fit the budget.

Unlike our woven / yarn-dyed manufacturing techniques, printed carpet is initially tufted as a white carpet which is then digitally printed using a sophisticated ChromoJet spray pressure system, allowing the dye to penetrate deep into the pile. This process is quick and efficient, while the detail and clarity of design gives the resulting carpet a richness that complements its undoubted durability.

These contract-quality carpets are perfect in hotel guest bedrooms where width-to-width pattern matching isn't required. They will also deliver cut-pile under-foot comfort, stunning design and long-lifetime-value.

Breeze through this collection of elegant patterns in usable colourways, suitable in a wide variety of schemes. If you have something specific in mind, printed versions of any design are available; work with our design team to develop a bespoke carpet of your own design.

These carpets are subject to a minimum quantity of 100 sqm with a typical manufacturing lead-time of 6 weeks.

For more information, get in touch; we'd love to hear about your next project.
